- Develop their reading comprehension skills.

- Improve their critical thinking skills.
- Expand their knowledge of the world around them.
- Develop their appreciation for literature.
- Increase their motivation to read.

How to Use Literature Informational Texts

There are many different ways to use literature informational texts in the classroom. Some popular methods include:

- **Read-alouds:** Reading aloud to students is a great way to introduce them to new texts and genres. It also allows them to hear fluent reading and modeling.
- **Shared reading:** Shared reading is a strategy in which students read a text aloud together. This helps them to develop their reading fluency and comprehension skills.
- **Guided reading:** Guided reading is a small-group instruction strategy in which the teacher provides support to students as they read a text. This helps them to develop their reading comprehension skills and strategies.
- **Independent reading:** Independent reading is an important part of any reading program. It allows students to choose texts that they are interested in and to read at their own pace.

Basal Programs

Basal programs are a type of reading instruction program that is widely used in schools. These programs provide a structured approach to

instruction, with explicit lessons on phonemic awareness, phonics, fluency, vocabulary, and comprehension. Basal programs also typically include a variety of reading materials, such as stories, poems, and informational texts.

Benefits of Using Basal Programs

There are many benefits to using basal programs in the classroom. These programs can help students to:

- Develop their reading skills.
- Improve their reading comprehension.
- Expand their knowledge of the world around them.
- Develop their critical thinking skills.
- Increase their motivation to read.

How to Use Basal Programs

Basal programs are typically used in a whole-group setting. The teacher introduces the lesson and then leads the students through a series of activities. These activities may include reading the text, answering comprehension questions, and completing workbook pages.

Combining Literature Informational Texts and Basal Programs

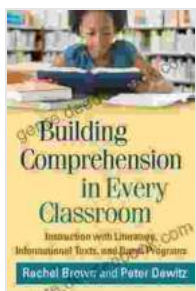

Many teachers find that it is effective to combine literature informational texts and basal programs in the classroom. This approach allows teachers to provide students with a variety of reading materials and to meet the needs of all learners.

When combining literature informational texts and basal programs, it is important to consider the following:

- The grade level of the students.
- The reading abilities of the students.
- The learning goals of the lesson.
- The amount of time available for instruction.

Instruction with literature informational texts and basal programs is a powerful way to engage students in learning. By using a variety of text types and instructional methods, teachers can help students to develop their reading skills, critical thinking skills, and knowledge of the world around them.
