Team Leadership

President: John Smith

John is a third-year Computer Science student who serves as the President of the SPG. He is responsible for overseeing the overall operations of the organization, including planning events, managing finances, and representing the SPG to the Sheridan community. John's passion for

programming and his commitment to fostering a supportive environment have made him an invaluable leader for the SPG.

Vice President: Jane Doe

Jane is a second-year Software Engineering student who holds the position of Vice President. She assists the President in managing the organization's daily operations and plays a key role in organizing events and workshops. Jane's enthusiasm for collaboration and her ability to connect with members make her an essential part of the SPG team.

Executive Team

Treasurer: Michael Jones

Michael is a first-year Computer Science student who serves as the SPG's Treasurer. He is responsible for managing the organization's finances, including budgeting, tracking expenses, and preparing financial reports. Michael's attention to detail and his understanding of financial management ensure the SPG's financial health.

Secretary: Alice Brown

Alice is a second-year Computer Science student who holds the position of Secretary. She is responsible for maintaining the organization's records, including meeting minutes, membership information, and event documentation. Alice's organizational skills and her dedication to accuracy make her a vital member of the SPG team.

Mentorship Team

Mentor Coordinator: David Rodriguez

David is a fourth-year Computer Science student who leads the SPG's Mentorship Program. He is responsible for recruiting and training mentors, matching mentors with mentees, and organizing mentorship sessions. David's passion for mentorship and his commitment to helping students succeed have made the Mentorship Program a cornerstone of the SPG.

Mentor: Sarah Wilson

Sarah is a third-year Software Engineering student who serves as a mentor in the SPG's Mentorship Program. She provides guidance and support to first- and second-year students, sharing her knowledge of programming, problem-solving, and industry best practices. Sarah's dedication to mentorship and her ability to connect with students make her an invaluable resource for the SPG community.

Event Planning Team

Event Coordinator: Thomas Lee

Thomas is a second-year Computer Science student who leads the SPG's Event Planning Team. He is responsible for planning and organizing a variety of events, including workshops, hackathons, and guest speaker sessions. Thomas's creativity and his ability to bring people together have made the SPG a hub for innovation and collaboration.

Event Volunteer: Emily Carter

Emily is a first-year Computer Science student who serves as an Event Volunteer for the SPG. She assists the Event Coordinator in planning and executing events, ensuring that everything runs smoothly. Emily's enthusiasm and her willingness to help make her an invaluable member of the SPG team.

Community Outreach Team

Outreach Coordinator: William Davis

William is a third-year Computer Science student who leads the SPG's Community Outreach Team. He is responsible for connecting the SPG with the broader Sheridan community and the local tech industry. William's dedication to building partnerships and his ability to engage with stakeholders have expanded the SPG's reach and impact.
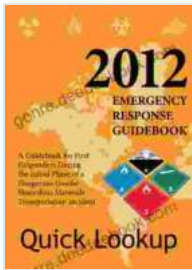

Community Liaison: Jessica Miller

Jessica is a second-year Software Engineering student who serves as a Community Liaison for the SPG. She represents the organization at various events and initiatives, promoting the SPG and its mission to the Sheridan community. Jessica's passion for community engagement and her ability to connect with people make her an effective ambassador for the SPG.

The Sheridan Programmers Guild team is composed of dedicated individuals who are passionate about programming, mentorship, and community building. Under the leadership of John Smith and Jane Doe, the team has created a vibrant and supportive environment for students to learn, collaborate, and innovate. From the Executive Team to the Mentorship Team, the Event Planning Team, and the Community Outreach Team, each member of the SPG team plays a vital role in shaping the organization's success. As the SPG continues to grow and evolve, the team remains committed to fostering a community where aspiring programmers can thrive and make a meaningful impact in the world of technology.
