

Rhinoplasty Craft and Magic: The Art of Mark Constantian

Rhinoplasty, or nose surgery, is a delicate and complex procedure that requires a surgeon with a keen eye for aesthetics and a deep understanding of facial anatomy. Dr. Mark Constantian is one such surgeon, and his work has earned him a reputation as one of the world's leading rhinoplasty experts.

Dr. Constantian's approach to rhinoplasty is both artistic and scientific. He believes that a successful rhinoplasty should not only improve the appearance of the nose, but also preserve its natural function. To achieve this, he uses a variety of advanced techniques, including:

- **Open rhinoplasty:** This technique involves making an incision across the columella, the strip of skin that separates the nostrils. This allows

Dr. Constantian to have a direct view of the nasal structures, which gives him greater precision in reshaping the nose.

- **Closed rhinoplasty:** This technique involves making incisions inside the nostrils. This is a less invasive approach, but it can be more challenging to achieve the same level of precision as with open rhinoplasty.
- **Piezoelectric rhinoplasty:** This technique uses ultrasonic waves to reshape the nasal bones. This is a newer technique that offers several advantages over traditional rhinoplasty, including less bleeding, bruising, and swelling.

In addition to his technical skills, Dr. Constantian is also known for his artistry. He believes that a beautiful nose is one that is in harmony with the rest of the face. To achieve this, he takes into account the patient's individual facial features, as well as their personal preferences.

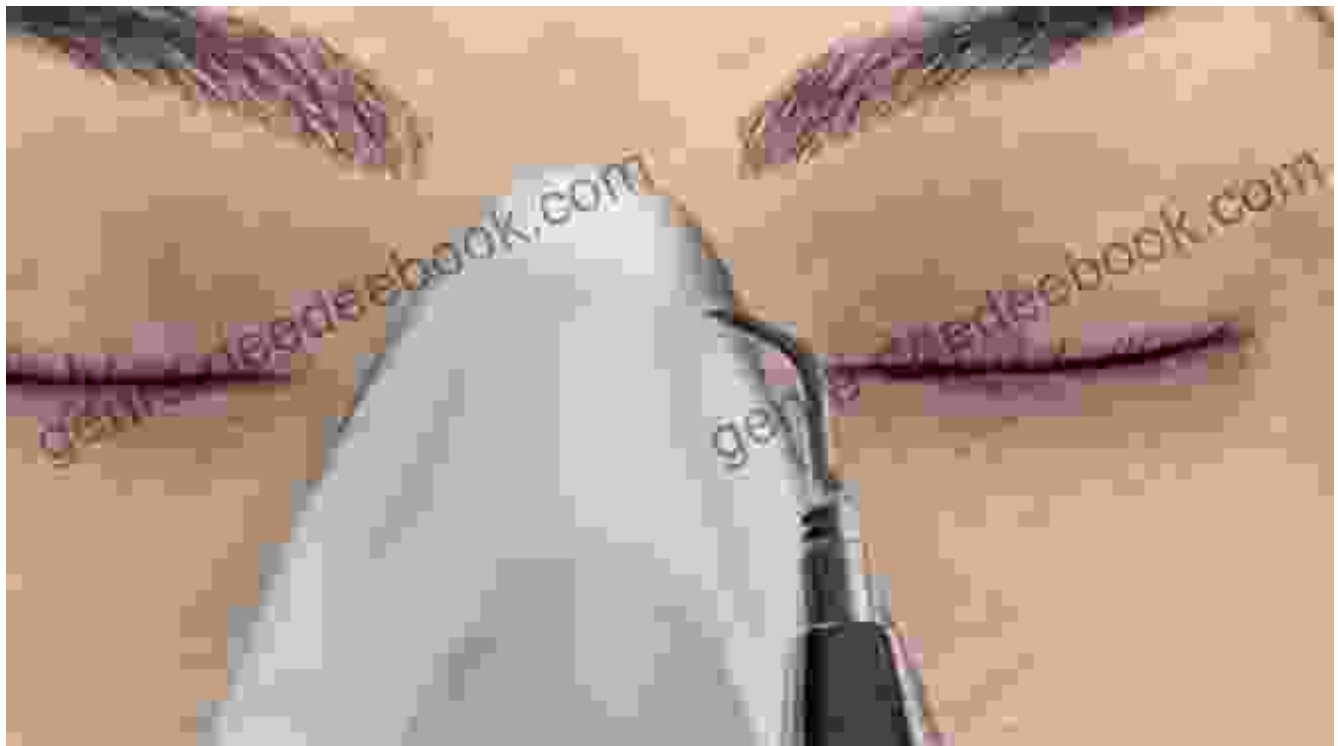

Dr. Constantian's work has been featured in numerous publications, and he has appeared on several television shows, including "Extreme Makeover" and "The Doctors." He is also a member of the American Academy of Facial Plastic and Reconstructive Surgery and the American Society of Plastic Surgeons.

If you are considering rhinoplasty, it is important to choose a surgeon who is experienced, skilled, and artistic. Dr. Mark Constantian is one such surgeon, and he can help you achieve the beautiful, natural-looking nose you desire.

OPEN RHINOPLASTY	CLOSED RHINOPLASTY
	
<p>In Open Rhinoplasty, the surgeon makes a small incision in the columella between the nostrils and then makes additional incisions inside the nose.</p> <p>Open Rhinoplasty has the distinct advantage of direct visualization of the cartilages. However, perhaps more important is the ability to manipulate and alter nasal shape with more control, precision:</p>	<p>In Closed Rhinoplasty, incisions are made inside the nostril.</p> <p>Closed Rhinoplasty has the advantage of decreased operative time, less swelling and postoperative healing and avoidance of a scar along the columella.</p>
