Are you looking for a hilarious and heartwarming romantic comedy to read this New Year? If so, then you need to check out *The Love Hypothesis* by Ali Hazelwood. This laugh-out-loud funny and emotionally resonant novel tells the story of Olive Smith, a brilliant astrophysicist who pretends to be in a relationship with her lab partner, Adam Carlsen, in order to win a grant. But what starts as a fake relationship soon turns into something very real.

Olive is a brilliant astrophysicist who is struggling to win a grant. She knows that her chances of getting the grant would be greatly improved if she had a boyfriend. So, she comes up with a plan to pretend to be in a relationship with her lab partner, Adam Carlsen. Adam is a handsome and charming astrophysicist who is also Olive's best friend. He agrees to go along with Olive's plan, and soon the two of them are pretending to be a couple.

At first, Olive and Adam's fake relationship is just for show. But as they spend more time together, they start to develop real feelings for each other. Soon, they're both head over heels in love. But there's one problem: Olive doesn't want to admit her feelings to Adam, because she's afraid that it will ruin their friendship.

The Love Hypothesis is a laugh-out-loud funny and emotionally resonant romantic comedy. Olive and Adam are both incredibly likable characters, and their relationship is both hilarious and heartwarming. If you're looking for a feel-good romantic comedy to read this New Year, then you need to check out The Love Hypothesis.
