Let's start with a basic rose drawing. This drawing is perfect for beginners, and it will teach you the basic shapes and forms of a rose.

Step 1: Draw a circle.

Start by drawing a circle for the center of the rose. This circle will be the base of the flower.

Step 2: Add petals.

Around the circle, draw five evenly spaced petals. The petals should be slightly pointed at the tips and wider at the base.

Step 3: Add sepals.

Below the petals, draw five sepals. The sepals are the small, leaf-like structures that protect the rosebud.

Step 4: Add details.

To add detail to your rose, draw lines to represent the veins in the petals. You can also add shading to create depth and dimension.

Step 5: Finish.

Once you're happy with your drawing, erase the circle you drew in Step 1. Your basic rose drawing is now complete!

Once you've mastered the basic rose drawing, you can move on to more intermediate techniques. This drawing will teach you how to create a more realistic and detailed rose.
